licenses

Illinois Substitute
Teaching License &
FCC Technician Class
Radio
License

Interests

Evolution outreach & education, macroevolution, the evolution of plant breeding systems, the nature of adaptation, R for data manipulation & visualization, R for undergraduate education

Education

PhD student in Ecology & Evolutionary Biology

University of Illinois at Chicago

Thesis: *The Process of Natural Selection: Resultant Patterns and How We Understand Them*

MA in Molecular & Cellular Biology, 2016

CUNY Hunter College

BS in Forensic Molecular Biology & Philosophy, 2012

CUNY John Jay College

Teaching

BIOS 220 *Molecular and Mendelian Genetics*

2019-Present

Sophomore-level genetics course focusing on Mendelian inheritance patterns and molecular mechanisms of inheritance. Managed transition from in-person to online format. Responsible for teaching discussion section, creating digital course materials and exams, grading, and Blackboard administration.

BIOS 230 *Ecology and Evolution*

Spring 2019

Sophomore-level course with emphasis on basic ecological systems, ecosystem dynamics, and evolutionary principles. Responsible for weekly office hours, assignment creation, and grading.

BIOS 430 *Evolution*

2017-2018

Upper-division, programming-focused course on evolutionary theory and principles. Responsible for weekly office hours and debugging, quiz materials, and grading of R programming assignments.

BIOS 120 *Biology of Populations and Communities*

2016-2017

Introductory biology laboratory course with emphasis on ecological and evolutionary principles. Responsible for weekly laboratory instruction, office hours, and grading.

Professional Experience

Tutor at Nurturing Wisdom Tutoring

2018-Present

Highly-rated individual tutoring for grades 7-12 in science, mathematics, reading, language, and writing. Provide tutoring of content and test-preparation strategies for High School Entrance Exams and SATs.

Forensic Molecular Biologist at NYC Office of Chief Medical Examiner

2012-2015

Examined evidence for the presence of biological fluids, performed serological and DNA analysis techniques, analyzed data and performed statistical analysis, wrote reports, and provided expert scientific testimony in court.

Health Research Intern at NYC Department of Health

2011-2012

Accepted to the Health Research Training Program for a year-long internship with the Bureau of Environmental Disease Prevention. Received training in disease epidemiology, emergency preparedness and response, public health and outreach programs in environmental disease control and prevention, and emerging viral infections.

Field Manager & Administrative Assistant at Working Families Party

2008-2011

Performed administrative tasks including payroll, managing employees' healthcare coverage, bank deposits, and data entry. Organized informational events for the public, and served as Field Manager for multiple election and fundraising campaigns.

Extracurricular

- 2019-Present Created a website for student materials and tutorials in BIOS 220: Genetics
- 2017-Present Reviewer for International Journal of Botany, Oxford Bibliographies
- 2018 Recipient of the Graduate Teaching Award
- 2017 Accepted to NSF-funded summer workshop on diversification rates & macroevolution
- 2017 Accepted to MicroMORPH Plant Anatomy summer course at Harvard University
- 2016 Volunteer at Garfield Park Conservatory

Presentations

Annual Meeting of the Botanical Society of America Poster

2018
