LUCY E DELANEY

University of Illinois at Chicago Department of Biological Sciences Chicago, IL 60607

ldelan5@uic.edu **4**@ledelaney **9**ledelaney.org **—**

Education

University of Illinois at Chicago PhD, Ecology and Evolutionary Biology (Expected Fall 2021) Dissertation: How do we understand natural selection?

Advisor: Joel Brown

HUNTER COLLEGE

MA, Molecular and Cellular Biology (2016)

JOHN JAY COLLEGE OF CRIMINAL JUSTICE BS, Forensic Molecular Biology (2012)

Minor: Philosophy

Teaching Honors

GRADUATE STUDENT
EXCELLENCE IN TEACHING
AND MENTORING AWARD

2021 Honorable Mention

One of three PhD candidates recognized by the University for excellence in undergraduate teaching and mentoring.

SERVICE AWARD

2021 Department of Biological Sciences Graduate Service Award Awarded for Department-wide efforts to aid in online instruction.

GRADUATE STUDENT TEACHING AWARD **2020** Department of Biological Sciences Graduate Teaching Award Awarded for excellence in teaching in Genetics.

2018 Department of Biological Sciences Graduate Teaching Award Awarded for excellence in teaching in Evolution.

University Teaching

Biology Colloquium Fall 2021 & 🖓

Course Coordinator

Designed to generate a sense of community, belonging, and excitement among new biology majors. Composed of newly-admitted freshman and transfers, and upper-division majors ready to take on a leadership role. I design the course structure and oversee all activities, with emphasis on student mentoring at both levels.

Course Builder

Biological Sciences Department Summer 2020–Present 🚱 💭 Tranining faculty and Graduate Teaching Assistants in online pedagogy and instructional tools with written materials, tutorial videos, and drop-in hours. Assisting in building courses from the ground up, and providing technical support throughout online delivery.

GRADUATE Teaching Assistant

During my eleven semesters as teaching assistant, I taught discussion¹ and laboratory² sections, designed & created instructional materials³, held study sessions⁴, and worked with students on **Q** programming skills⁵ in courses ranging from introductory to advanced. I also taught online and managed Blackboard administration⁶ during Covid-19.

Mendelian and Molecular Genetics^{1,3,4,6} Fall 2019–Summer 2020 General Ecology Laboratory^{2,4,5} • Ecology and Evolution^{3,4} Evolution 3,4,5 Biology of Populations and Communities^{2,4}

Summer 2019 Spring 2019 Fall 2017-Fall 2018 Fall 2016–Spring 2017

Areas of Undergraduate Teaching Focus

Introductory and Intermediate Ecology & Evolutionary Biology. Basic ecological systems, ecosystem dynamics, and core evolutionary principles, with emphasis on application via introductory field experimentation and programming.

Advanced Evolutionary Biology. History & development of evolutionary theory, evolutionary mechanisms, basic population genetics, quantitative genetics, species concepts & speciation, and macroevolutionary processes, with introduction to computational applications.

Genetics. Principles of genetics, gene & chromosome structure, gene expression, inheritance of complex traits, and Mendelian & non-Mendelian inheritance.

Conference Presentations

Evolution Education Research

June 2021 at Annual Evolution Conference | Virtual Talk March 2021 at Midwest Ecology and Evolution Conference | 🙎 Best Graduate Talk 🖾 📑 📢 January 2021 at SABER West | Virtual Roundtable

Flowering Plant Breeding Systems

July 2021 upcoming, at Annual Meeting of the Botanical Society of America | Virtual Talk July 2018 at Annual Meeting of the Botanical Society of America | Poster August 2017 at microMORPH, Arnold Arboretum of Harvard University | Talk

Publications

Delaney, Lucy E. (2012). Nietzsche, nerve stimulation-image connection, and ontology. John Jay's Finest, 27, 99–103.

In submission

Delaney, Lucy E, Ramanauskas, K., & Igić, B. The phylogenetic distribution and frequency of self-incompatibility in Fabaceae. Submitted to the International Journal of Plant Sciences.

Delaney, Lucy E. The orchids and their breeding systems. Submitted to Orchids magazine.

In preparation

Delaney, Lucy E & Brown, J. University students' explanations of adaptation. I. Dimensions of conception.

Delaney, Lucy E & Brown, J. University students' explanations of adaptation. II. Dimensions of misconception.

Professional Activities

Service

- 2021 Participant in the Undergraduate Mentoring Program at the Annual Evolution Conference
- 2021 Invited member of UIC student advisory group concerning graduate student teaching support
- 2020 Participant in the 2020 Chicago 😱 Collaborative Conference 🔗
- 2018 Reviewer for International Journal of Botany (1x), Oxford Bibliographies (1x)
- 2016 General horticulture volunteer at Garfield Park Conservatory 🔗

Memberships

- Society for the Study of Evolution
- Botanical Society of America
- Field Museum Women in Science
- Society for the Advancement of Biology Education Research (SABER)

Other Awards

- 2018 Recipient of the Biological Sciences Department Travel Award
- 2017 Accepted to NSF-funded workshop on Bayesian Analysis of Macroevolutionary Mixtures 🔗
- 2017 Recipient of the Biological Sciences Department Travel Award
- 2017 Accepted to microMORPH Plant Anatomy Summer Course at Harvard University 🔗

Selected Professional Experience

Forensic Molecular Biologist at NYC Office of Chief Medical Examiner 2012–2015

Health Research Intern at NYC Department of Health

2011-2012

Field Manager & Administrative Assistant at Working Families Party New York State political action organization focused on economic justice. 2008-2011

Other positions 2007-2020

Like so many of our students, I held a variety of positions to support myself throughout my scholarly career: cashier, hostess, waitress, receptionist, babysitter, dog walker, bowling alley mechanic, substitute teacher, tutor, and barista. Such experiences inform my mentorship of students that face the unique challenges inherent in balancing work with the pursuit of postsecondary degrees.
