Employment

University of California, Riverside	Assistant Professor of Teaching, *December 2021-* Department of Evolution, Ecology, and Organismal Biology

Education

University of Illinois at Chicago	PhD in Ecology and Evolutionary Biology (*Fall 2021*) *How do we understand natural selection?* Advisors: Joel S. Brown and Boris Igić
Hunter College	MA in Molecular and Cellular Biology (*2016*)
John Jay College of Criminal Justice	BS in Forensic Molecular Biology, Philosophy (*2012*)

Teaching Activities and Honors

Hellman Fellowship	**2024-2025** Selected Fellow Provides financial support to junior faculty who exhibit potential for great distinction in their area of expertise.
Junior Faculty Excellence in Teaching Award	**2024** Recipient Nominated by the Department of Evolution, Ecology, and Organismal Biology and awarded by the UCR Academy of Distinguished Teaching.
Faculty Lead for RIDLE 4X and HHMI IE3	**2023-2024** Elected Faculty Cohort Lead A collaborative faculty development program hosted by XCITE with funding from HHMI, centered on the development of equitable and inclusive pedagogy in introductory science courses.
Deep Teaching Residency Program	**2022-2023** Selected Fellow An NSF-funded year-long faculty development program evaluating how instructor self-awareness, students' personal histories, and broad social structures impact the development of an equitable pedagogy.
Graduate Student Excellence in Teaching, Mentoring, and Service	**2018–2021** Four Awards Recognition for excellence in teaching and mentoring at the campus (1) and departmental level (2), along with recognition for service in the transition to online instruction during Covid (1).

University Teaching

Mentorship	Brittney Nguyen, PhD candidate	Fall 2023–present
	Theo Tran, Honors Capstone student	Spring 2025–Spring 2026
	Arnav Kacker, undergraduate student	Fall 2023–Spring 2025

*Find a repository of syllabi for all past and present UCR courses **here**.*

Course Redesign[1] and Development[2]	**Computer Skills for the Everyday Biologist**[2]	Winter 2026
	Hybrid modality redevelopment[1,2] (*3 courses*)	Fall 2025–Present
	Introductory Evolution and Ecology[1]	Spring 2023–Present
	Introduction to Organismal Biology[1]	Fall 2022–Present
	Cellular Basis of Life[1,2]	Spring 2022–Present
	Foundations for the Future[2]	Fall 2021

Instructor of Record	**Introduction to Organismal Biology** (n=285)	Spring 2026
	Cellular Basis of Life (n=280)	Spring 2026
	Introductory Evolution and Ecology (n=199)	Winter 2026
	Computer Skills for the Everyday Biologist (n=50)	Winter 2026
	Introduction to Organismal Biology (n=192)	Fall 2025
	Cellular Basis of Life (n=288)	Fall 2025
	Introduction to Organismal Biology (n=288)	Spring 2025
	Cellular Basis of Life (n=288)	Spring 2025
	Introduction to Organismal Biology (n=285)	Winter 2025
	Introduction to Organismal Biology (n=170)	Fall 2024
	Cellular Basis of Life (n=272)	Fall 2024
	Introduction to Organismal Biology (n=158)	Winter 2024
	Introduction to Organismal Biology (n=217)	Fall 2023
	Cellular Basis of Life (n=284)	Fall 2023
	Population Genetics and Genomics (n=37)	Summer 2023
	Introductory Evolution and Ecology (n=237)	Spring 2023
	Cellular Basis of Life (n=287)	Spring 2023
	Introductory Evolution and Ecology (n=200)	Winter 2023
	Freshmen Advising Seminar (n=22)	Fall 2022
	Introductory Evolution and Ecology (n=239)	Fall 2022
	Introduction to Organismal Biology (n=192)	Fall 2022
	Cellular Basis of Life (n=285)	Spring 2022
	Introduction to Organismal Biology (n=626)	Spring 2022
	Introduction to Cell & Molecular Biology (n=291)	Winter 2022
	Introductory Evolution and Ecology (n=178)	Winter 2022
	Foundations for the Future (n=25)	Fall 2021

Graduate Student Positions	**Course Coordinator**	Fall 2021
	Departmental Course Builder	2020-2021
	Graduate Teaching Assistant	2016-2020
	Genetics (4x), Evolution (3x), Introductory Biology (2x), Ecology Laboratory, Ecology and Evolution	

Publications

Peer-reviewed works

Delaney, Lucy E (2026.) Public Access Pedagogy: Storytelling as an act of sensemaking in Introductory Biology. In Richard Edwards, Connie Nugent, & Lash Vance (Eds), *Multipedagogies for College Teaching: Forging a Culture of Instructional Innovation.* Routledge. *Scheduled for publication in December 2026.*

Delaney, Lucy E & Igić, B. (2022). The phylogenetic distribution and frequency of self-incompatibility in Fabaceae. *International Journal of Plant Sciences, 183*(1), 30–42.

In preparation

Delaney, Lucy E (2026.) Reflections on educational livestreaming as a tool for teaching at scale: Some pedagogical and technological considerations. *Preprint available on SocArXiv.*

Other works

Delaney, Lucy E (2022). *Biology 002: The Cellular Basis of Life Course Textbook.*

Delaney, Lucy E (2021). *How do we understand natural selection?* [PhD thesis]. University of Illinois at Chicago.

Delaney, Lucy E (2012). Nietzsche, nerve stimulation-image connection, and ontology. *John Jay's Finest, 27*, 99–103.

Funding

2024-2025. $29,451. PI, *That's Life: A Television Show About Organisms (and a novel approach to introductory biology).* Hellman Fellows Fund.

2023-2025. $499,946.41. Co-PI with N. Holt and K. Samuk, *Using a Cluster Hire of Diversity-Invested Faculty to Integrate Biology and Social Justice Teaching.* UCOP Advancing Faculty Diversity.

Presentations, Seminars, and Workshops

April 2025 at CNAS Science Lecture Series | Invited Seminar
March 2025 at UCR Hellman Symposium | Talk
February 2025 at UCR Teaching Assistant Development Program | Invited Workshop
December 2023 at RIDLE 4X Showcase Event | Talk
July 2022 at Howard Hughes Medical Institute | Poster Presentation
October 2021 at University of Illinois at Chicago | Virtual Seminar
August 2021 at University of California, Riverside | Virtual Seminar
July 2021 at Society for the Advancement of Biology Education Research | Virtual Talk
June 2021 at Society for the Study of Evolution | Virtual Talk
March 2021 at Midwest Ecology and Evolution Conference | Best Graduate Talk
January 2021 at SABER West | Virtual Roundtable
July 2021 at Botanical Society of America | Virtual Talk
July 2018 at Botanical Society of America | Rochester, MN | Poster
August 2017 at microMORPH | Arnold Arboretum of Harvard University | Talk

Ongoing Teaching Projects

- **A digital community approach to large-enrollment biology lecture** | Outlines the development and use of an instructional "livestream model" that leverages popular social media apps like YouTube and Discord to faciliate high-quality online education and community building at scale.
- **Examining the efficacy of two-stage assessment models** | Studies the effect of two-stage "collaborative" assessments on longer-term content retention, with an emphasis on variations in group composition.[1]
- **Effect of course design and structure on student sense of belonging** | Uses pre-post surveys over multiple quarters to assess various affective metrics with an emphasis on student sense of belonging.[1]
- **Accessibility and inclusion in the digital classroom** | Focuses on the effects of digital instruction for students with disability accommodations.[1,2]

(with graduate[1] or undergraduate[2] student)

Teaching Service Activities

- **2023-present** Biology curriculum committee member
- **2023-present** Biology major annual assessement committee co-chair
- **2024-2025** Member of the Coordinating Committee for General Education
- **2024** Invited participant for the *Ask a CNAS Professor* video series
- **2024** Invited speaker for CNAS First-Year Scholars Faculty Mixer
- **2023-2025** Invited speaker for EEOB graduate student lunch bunch (4x)
- **2023** Invited speaker for EEOB 400 graduate seminar (2x)
- **2023** Faculty panel speaker for CNAS new student orientation day
- **2023** Faculty "Brown Bag" presenter for RISE program
- **2022-2023** Faculty mentor for CNAS Graduate Student Mentorship Program
- **2022** Journal club facilitator for GradEdge/JumpStart program for new graduate students
- **2021** Participant in the Undergraduate Mentoring Program at the Annual Evolution Conference

Selected Professional Experience

Forensic Molecular Biologist at NYC Office of Chief Medical Examiner 2012–2015

Health Research Intern at NYC Department of Health 2011-2012

Field Manager & Administrative Assistant at Working Families Party 2008-2011
New York State political action organization focused on economic justice.

Other positions 2007-2020
Like so many of our students, I held a variety of positions to support myself throughout my scholarly career: cashier, hostess, waitress, receptionist, babysitter, dog walker, bowling alley mechanic, substitute teacher, tutor, and barista. Such experiences inform my mentorship of students that face the unique challenges inherent in balancing work with the pursuit of postsecondary degrees.
